

Header Two

Double style span Monotype span with carriage return. a humongous font size span.
Followed by long parent-less text node. asdf qwer asdf zxcv qwasfd qwer qwasfd zcxv sdf qwer qwe sdf wer qwer asdf zxcv.
Serif Inner DIV (bad markup, but testing block detection)
Sans-serif span with extra spaces Followed by text node without any wrapping element. And some long long text span attached at the end to test line wrap. qwer asdf qwer lkjh asdf zxcv safd qwer wwwwwwwwwwwwwwwwwwwww qewr asdf zxcv.

This is a *new* paragraph.

This is more wrapping-less text.

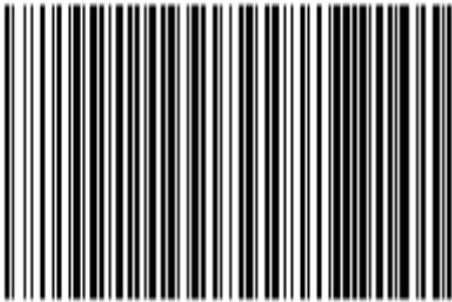

This paragraph will **NOT** be on resulting PDF because a special attached element handler will be looking for the ID - 'bypassme' - and should bypass rendering it.

This is **another** paragraph.
